

Communication Policy

Rationale

St John's Catholic Parish Primary School recognises that clear communication underpins strong home-school partnerships. The school aims to develop clear, two-way communication that fosters a strong community network and supports student learning. This policy provides information to parents in order to:

- Outline the ways in which information will be communicated by the school to the community; and
- Suggest the most suitable avenues for parents/guardians to communicate with the school.

Student safety

St John's holds the care, safety and wellbeing of students as a central and fundamental responsibility of our school. Our commitment is drawn from and inherent to the teaching and mission of Jesus Christ, with love, justice and the sanctity of each human person at the heart of the Gospel. (ref [CEVC Commitment Statement to Child Safety](#))

When students are problem solving, creating and communicating information, they will apply skills and protocols to meet their legal, safety, cultural and ethical obligations and responsibilities. For example, protocols such as using acceptable language, acknowledging different cultural practices, and using passwords and privacy settings on social media sites, are applied to increase the security of personal data and to respect participants in online environments.

Aims

St John's Catholic Parish Primary School aims to:

- Communicate to the school community in the most efficient way.
- Establish & maintain strong home-school partnerships.
- Develop clear two-way communication.
- Utilise digital technology where appropriate.
- Assess the reliability and relevance of various information sources.
- Adhere to the Child Safety Standards.
